

TU CESE: Industry's Training Resource

FUNDAMENTALS OF TITLES, DEEDS, CONVEYANCES AND LEASES

THE UNIVERSITY of
TULSA
*Continuing Education for
Science & Engineering*

ABOUT YOUR INSTRUCTOR

TIMOTHY C. DOWD is an attorney with Elias, Books, Brown & Nelson, in Oklahoma City. His primary area of practice is oil and gas law, including the rendering of title opinions and drafting of industry contracts.

Mr. Dowd is the past president of the Oklahoma City Mineral Lawyers Society and former Chairperson of the Oklahoma Bar Association Mineral Law Section. He is also a member of the Legal Committee of the Interstate Oil and Gas Compact Commission and the Advisory Council to the Marginal Well Commission of Oklahoma.

He is also the author of the chapter on Oil and Gas Titles in West Publishing Company's *Oklahoma Real Estate Forms and Practice*; plus many articles including Clearing Title of Long-Lost Mineral Owners (54 Rocky Mountain Mineral Law Institute 30-1-2008) and Preferential Rights to Purchase in Oil and Gas Transactions (49 Rocky Mountain Mineral Law Institute 5-1-2003).

2018 COURSE DATES AND LOCATIONS

April 24-25	HOUSTON, TX
May 15-16	OKLAHOMA CITY, OK
August 28-29	DENVER, CO
November 27-28	HOUSTON, TX

The essence of the land department of oil and gas companies is the determination of ownership. As you know, ownership of oil, gas and other minerals, determine who has the right to drill and, after production, who is entitled to payment.

This two-day nuts-and bolts course will give you the basics in determining land titles and the ownership of the mineral interests; plus acquaint you with the fundamentals of the acquisition and development of oil and gas properties.

If you are involved in such matters as title work, lease purchasing, negotiation and preparation of contracts, farmout agreements, surface damage agreements, lease administration and the 1001 other issues that are involved in the drilling and management of wells... you will benefit from attending this course.

Participants will be given real-world problems to solve so that they can transfer the knowledge gained from this course into real solutions.

PROGRAM CONTENT

Basic Principles of Land Ownership, Types of Transfers
